

Bristol Hub COVID Safe Guidance

In these times, volunteering and working together has never been so important to ourselves and local communities. That's why Bristol Hub has ensured that all of our volunteering opportunities are in accordance with Government and university guidelines surrounding COVID-19.

For teaching block 1 & 2 (October 2020 - May 2021) we were offering no in-person volunteering. We offered:

- *Online volunteering; such as virtual tutoring and phone befriending*
- *Remote volunteering; such as penpalling*
- *Virtual skilled placements; student consultancy opportunities through the Social Innovation Programme and Climate Action Bristol*
- *Virtual events and training*

We are currently in the process of preparing for in-person volunteering and activities to begin from September 2021. We will be assessing the possibility of this as government guidance is released. We will also continue to offer virtual volunteering as part of our default offer going forward.

Bristol Hub staff are present in the Student Union office on an adhoc basis over summer. Staff are available for virtual meetings or phone calls. We're more than happy to talk; ask us questions, claim expenses, speak to us about projects **or** just have a chat!

If you have any questions or concerns please email manager@bristolhub.org.

Please note, this is a working document and will change based on guidelines and Student Hubs policy. Please check back periodically to see how we are operating.

Last updated 16 June 2021. This document will be updated if this activity changes.
